O R Y

Dear Faculty and Staff,

One of Collin County Community College's greatest strengths is the quality of the people it employs. Every year, the college adds new faculty and staff members to an already exemplary group. They are chosen not merely for their special qualifications but for their personality and character as well. What gives an organization its vitality is the quality of its people and the quality of relationships that exists with them.

So I encourage you to schedule some time to get acquainted with your colleagues, spend a few minutes each day stopping to talk with people you don't normally come in contact with. Get to know others who are helping make CCCC "a world class" learning center.

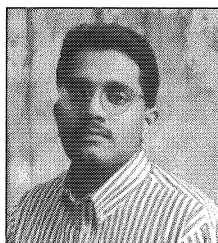

Sincerely,

A handwritten signature in dark ink, appearing to read "John H. Anthony". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

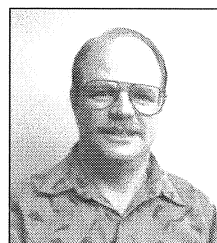

John H. Anthony
