**MY DUTY** Mustaffa Shahid

Hermes never gets caught passing notes in class.
It must be his magic shoes. He climbs the tallest tree
in the playground and jumps off, believing he could fly.

Demeter is in charge of snack time, passing out
juice and crackers to everyone. She won't give
any to Hades though.

Dionysus drinks all the grape juice boxes.
He's the youngest in the class, but that doesn't
seem to bother anyone.

Hephaestus only likes to play with Legos.
He's got a crush on Aphrodite, even though
she'd never go for a kid like him.

Aphrodite is the new girl at school. She marries
Hephaestus on the playground during recess, though
she's smooching Ares behind the slide by lunchtime.

Kronos and Rhea pick them up from school,
trying to ignore all the squabbling in the backseat
as they head home to Olympus.
